

## DEATH

## CHEATER

## TALENTS

Hacktastic PCs face death around every turn, through fate, skill or blind luck they manage to survive to fight another day. These new Solo Talents reward those with a heroic destiny that live where lesser adventures would be pushing up daises. Each grants an ability or bonus to better cheat death at least one more time. Death Cheater Solo Talents follow

ALL the same rules as Solo talents listed on pages 95-99 of the H/20 Guidebook. In addition most require a prerequisite that the PC has at one time in the past survived a KILL INJURY Result of a particular type. Add a few of these to your favorite Hacktastic Fantasy PC to give a bit of role-playing flavor.
